

MN PERFORMANCE TESTED  
**BULL SALE**

THURSDAY, APRIL 2, 2026 ▪ JACKSON, MN ▪ 6:30PM

PRESENTED BY THE  
**MINNESOTA BEEF  
CATTLE IMPROVEMENT  
ASSOCIATION**

MINNESOTA

# BULL EVALUATION

PROGRAM INFORMATION

Each year the Minnesota Beef Cattle Improvement Association (MBCIA) in association with the University of Minnesota, operates a bull test station located near Spring Grove, MN, and managed by Ron Holty, Foundation Feeders, Inc.

The purpose of this bull test is to measure the individual performance of perspective herd sires under relatively standard conditions so that reasonably valid comparisons can be made between bulls. All bulls are given an index for the sale on a formula using both the average daily gain (ADG) and the weight per day of age (WDA) of the bull compared with the average of the testing group. At the conclusion of the feed test, the top 75% of the bulls meeting the sale criteria are examined for health and reproductive soundness, and offered at auction for the improvement of other herds.

## BOARD CONTACTS

---

### 2026 MBCIA Board of Directors

Dustin Martin, President .....712-229-2410  
10252 480th Avenue | Blue Earth, MN 56013

Pete Hassing, Vice-President .....507-327-0899  
59717 130th Street | Wells, MN 56097

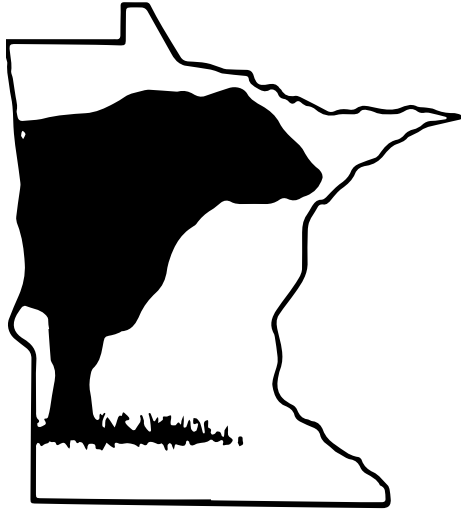

Jeff Bennett, Secretary/Treasurer ..... 507-251-9689  
PO Box 310 | Preston, MN 55965

### MBCIA Test Station Manager

Ron Holty, Foundation Feeders, Inc.....507-429-7963  
21685 South View Road | Spring Grove, MN 55974 .....507-498-5839

# MN PERFORMANCE TESTED BULL SALE

THURSDAY, APRIL 2, 2026 • JACKSON, MN

## SCHEDULE OF EVENTS

High Indexing Awards to Consignors.....**6:15 PM**  
 Performance Tested Bull Sale Begins.....**6:30 PM**

## AUCTIONEER

Al Conover - Baxter, IA.....515-491-8078

## SALE DAY CONTACTS

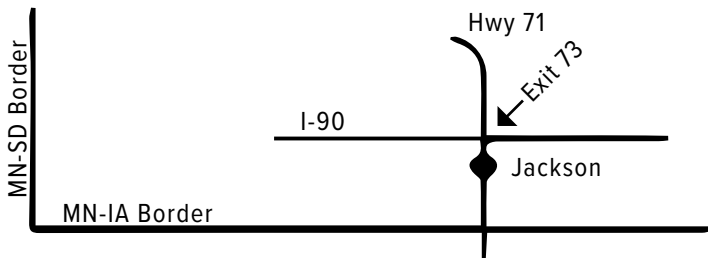

Dustin Martin.....712-229-2410  
 Pete Hassing.....507-327-0899  
 Ron Holty .....507-429-7963  
 Kelly Schmidt.....406-599-2395  
 Andrew Swanson.....507-829-4133

*A snack bar is available at the sale barn.*

## SALE LOCATION

Jackson Sale Barn.....**507-847-5679**  
 Jackson, Minnesota

Turn off I-90 at Exit 73. Drive South on Highway 71 to first turn-off (County Road 38). Drive East on County Road 38 one mile to dead end. Turn South onto County Road 23 and continue for 1.25 miles. The fairgrounds will be on the left and the Jackson Sale Barn is on the corner on the right.

## SALE TERMS

**SALE ORDER** Bulls are sold by index order over all bulls.

**INSPECTION OF BULLS** Bulls may be viewed anytime at the test station until Tuesday, March 31, 2026 and from Wednesday afternoon, April 1, 2026 to sale time at the Jackson Sale Barn. All bulls will be tagged according to their lot numbers in the catalog.

**HEALTH CERTIFICATES** Signed interstate health papers are available at settlement.

**ULTRASOUND MEASUREMENTS** Scanning performed by Amanda Baker. He is certified with the National Centralized Ultrasound Processing (CUP) Lab & Technology Center.

**ANNOUNCEMENTS** All announcements from the auction block shall take precedence over information in the sale catalog.

**BIDDING** Each animal on which there are two or more bids will be sold to the highest bidder.

**TERMS** Cash payment must be received prior to the movement of bulls from the sale barn.

**HANDLING** Each animal will be at the buyer's risk as soon as sold, but will be cared for by the management for a reasonable period of time - until they are loaded, free of charge to the buyer, but at his risk of loss or injury.

**BREEDING GUARANTEE** An official health certificate, as supplied by MBCIA, will be regarded and accepted by buyer of bull(s) as conclusive evidence of satisfactory health. In addition, only qualifying bulls who have passed a semen quality exam will be offered for sale. Bulls are guaranteed to be breeders if properly cared for. Any bull that has not proven himself a breeder within eight months of sale date, if in healthy condition and meets health regulations for the State of Minnesota, may be returned to the seller at the buyer's expense. The seller reserves the privilege to try for a period of six months to prove the bull is a breeder. Should the bull fail to prove a breeder in the specified time period, the seller will refund the purchase price which will be considered as full settlement and satisfaction of claims. All complaints regarding breeding problems must be reported in writing by the buyer to the seller within eight months.

**MBCIA gives no warranty, expressed or implied, including any warranty of merchantability or fitness for particular purposes. All guarantees are between buyer and seller. MBCIA acts only as a sales agent. Bulls listed as purebred or eligible for registry are so guaranteed by the seller.**

MBCIA gives no warranty as to the breed purity of bulls for sale.

**CONTRACT** The above terms and guarantee shall constitute a contract between the buyer and the seller.

**LIABILITY** All persons who attend the sale do so at their own risk. The MBCIA and the sale barn assume no liability, legal or otherwise, for accidents which may occur.

## FEEDING

**Ron Holty, Test Station Manager .....507-429-7963**  
 Will haul any purchased bull back to the test station at Spring Grove, MN and hold him for the buyer's convenience until breeding season for \$4/day.

## REGISTRATION PAPERS

Registration papers will be transferred to the buyer without charge. Buyers must notify sale clerks at time of settlement if requesting transfer of registration.

An excellent calving ease prospect out of a beautiful first calf heifer. This bull sired by the up and coming Genex sire Bear Mountain North Star has performed admirably with a 4.9 lb ADG after a modest 72lb start to life. Excellent phenotypically, he comes from one of our favorite cow families. His maternal sister on the ground is sure to be a sale feature. He also carries the CAB stamp on his registration paper. If you believe in cow families, make sure to check him out.

This bull and his full brother, Lot 16, are proven genetics. We've sold 7 full brothers to these guys, 2 of them right here at the MN bull test and all have performed near the top of every place we've put them. They have 5 full sisters working in our herd and others, and they are out producing their donor dam, which is a remarkable feat. Their donor dam is a maternal sister to EXAR Superior in the Genex/CRI lineup. I really don't know which of these guys I like better, so you decide.

One of the very best top indexing bulls of this test at a 115.1 ratio for gain. He is a true calving-ease bull that has out performed nearly every bull on this test finishing 2nd in average daily gain at 5.05 ADG. That puts him near the top of the index as well. A bull that has tremendous muscle and shape in a very attractive package that's easy to look at and like when you walk in the pen too. He also offers you tremendous \$B and \$C values at 324 \$C. EPDs that are HD 50 K enhanced for accuracy too. A special bull that combines performance and calving-ease.

Here is your chance to get a high growth bull that will add pounds and frame to your calf crop in a big way. He had a weaning weight of 851 lbs. And he is Top 3% WW and Top 2% YW with tremendous CW, marbling, and REA numbers and values to go with it. His donor dam is an impressive cow selected as a donor out of the Koch dispersion. If you want to add frame and pounds of performance to your calf crop this is your bull. His EPDs are HD 50K enhanced.

SCC Chief King is a well-balanced Angus sire that blends added performance with exceptional structural quality. Ranking in the top 35% for WW, 25% for YW, and 25% for RADG, he delivers consistent growth and post-weaning performance. He adds maternal value with milk in the top 20% and calving ease maternal in the top 30%. Chief King truly excels in foot quality, ranking in the top 2% for claw and 3% for angle, offering soundness and longevity. Backed by solid carcass data with above-average REA and fat accuracy, he is a versatile, problem-solving sire for progressive cattlemen.

This bull's sire, Niagara and his sire, Hoover Dam, are two bulls that have really put their stamp on the Angus breed and show up on some of the most impressive high genomic pedigrees in the country with their exceptional marbling. His dam is a great cow in my herd. A Pathfinder cow having 6 calves with a weaning ratio of 108. With today's cattle prices I think 8% heavier calves would be enough reason to take this bull home and put him on your cows. This bull has a solid EPD and would work on cows and heifers.

This attractive blaze faced bull will add weight and frame to your cow herd as well as have calves with moderate birth weights. Out of a proven ten year old cow who is an excellent mother and had the top simmental bull in the UWRB bull sale a few years ago. These Black True North bulls will work well in any herd. Offering style and added weight.

Another True North son who will add size to your weaned calves while keeping birth weights low. Out of a larger framed cow he will add that length and muscle to your calves. Buy this bull with confidence and put him on your cows to reap big dividends at the sales barn.

We don't make a lot of Simmentals, but we bought a group of embryos from one of our clients, the Bloomberg family in Illinois, hoping for a heifer. If you're looking for a purebred Simmy bull to make some stylish half-bloods, I think this guy can do it. He's a Copacetic out of Bloomberg's famous "America" donor. Tremendous maternal genetics here.

# EPD + BULL

## INFORMATION

### EPD INFORMATION

Expected progeny difference (EPD) values have been provided by the national breed associations for each bull. Beef Value index for Black Angus (\$B), All Purpose Index (API) and Terminal Index (TI) for Simmental are included.

### FEED RATIONS

The bulls on test have been fed a TMR high roughage ration consisting of a high percentage of protein and a low percentage of energy. This promotes higher intake of forage which promotes rumen stretch, rumen health, and results in better performance on pasture.

### PERFORMANCE RECORDS

Each bull in the sale has surpassed rigid performance standards. The catalog provides performance data based on the 100-day weight report. Final performance data and scrotal circumference will be provided separately on sale day. In addition to the weights, EPDS, ADG, and WDA, the bulls have also been ultrasound scanned for backfat, intramuscular fat and ribeye area. All ultrasound data are adjusted to one year of age unless noted as an actual measurement.

### DEFINITIONS OF CATALOG INFORMATION

- **Birth Weight (BW):** Actual birth weight as reported by owner of bull.
- **104 Wt:** Weight reported on February 22, 2020, the 104th day on test.
- **ADG:** Average daily gain measured in pounds of gain per day.
- **WDA:** Weight per day of age equals the 100 Wt. divided by the days of age.
- **Breed Index (BI):** Ratio used to compare the bulls on test using the WDA and the ADG.
- **Ribeye Area (REA):** Ribeye ultrasound scanned measurement taken between the 12th and 13th rib, adjusted to 365 days of age and recorded in inches. Ribeye of 11 to 14 square inches are most appropriate for cutting one-inch thick steaks weighing 8 to 10 oz.
- **Rib:** Backfat, ultrasound measurement of the layer of fat directly under the hide over the ribs, adjusted to 365 days of age and recorded in inches.
- **Rump:** Backfat, ultrasound scanned measurement of the layer of fat directly under the hide over the rump, adjusted to 365 days of age and recorded in inches.
- **Intramuscular Fat (%IMF):** This measurement designates the amount of fat within the muscle (similar to marbling). Reported in percentage.

*\*Actual measurements are recorded for those bulls too young to adjust ultrasound measurements to one year of age.*

ONLINE BIDDING

# DVAUCTION

BROADCASTING REAL-TIME AUCTIONS

BUYING ONLINE IS AS EASY AS 1, 2, 3 ...

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "register" tab and watch our online bidding tutorial.

2. Apply for bidding approval by clicking on the "DETAILS" tab at least 24 hours prior to the auction. A DV representative will notify you once you have been approved.

3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment.

**High speed internet** is required for successful bidding – be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**PROXY BIDDING:** If you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

## HAVING TROUBLES?

DVAuction's full-time support team can also always be reached at 402.474.5557.

**This sale will be broadcast live on the internet.**

**Real time bidding & proxy bidding available.**
